

Survey Services

First In... Last Out

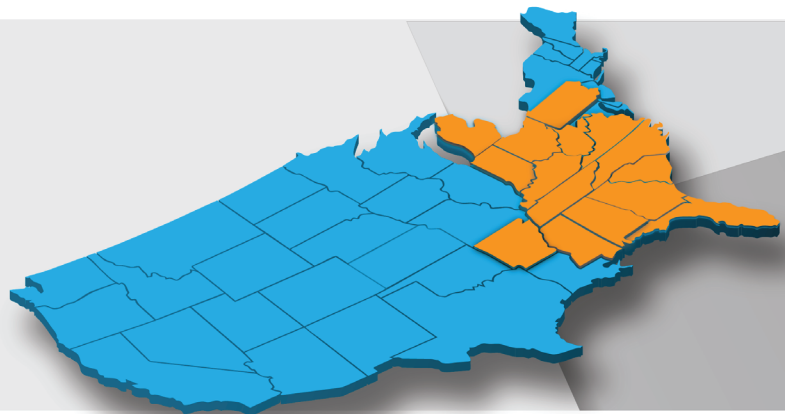

Precise and accurate surveying and mapping are critical to the success of any project. CESO's technical edge, combined with the continuous education and certification of our team members allows for standardized procedures and practices across all offices which provides you with the level of service and accuracy you expect. Utilizing the most advanced tools and technologies available, we can provide the reliable data necessary for civil engineering design, construction, and real estate development as well as municipal infrastructure projects.

National Reach

We have collaborated on a variety of projects from coast-to-coast. With 15 offices throughout the country, we are positioned to assist you where you need us, when you need us. With over 35 years of experience, CESO has developed lasting partnerships built on trust and integrity. The longevity of our relationships is driven by our commitment to serving the needs of our clients with precision and accuracy.

Across Markets

At CESO, we empower our people to impact communities by bringing our clients' visions to life. Within each sector, we seamlessly integrate our expertise to design solutions that support our mission to create value in our communities, by helping solve some of the challenges that exist in the lives of others where we live and work.
